Peggy Koelliker, Energy Health & Wellness Coach and founder of The Healing Connection, provides simple, cutting-edge strategies to help you increase the overall quality of your professional and personal life.

### ■ **Our Coaching and Wellness Services**

Through one-on-one coaching, group workshops and wellness programs, The Healing Connection offers three areas of skill sets – self-awareness, stress management and emotional freedom – to help you achieve your goals, increase your personal and professional satisfaction, and create a healthier, more enjoyable lifestyle. Peggy incorporates the energy medicine techniques of Reiki, Eden Energy Medicine, Emotional Freedom Techniques (EFT), Meditation and Hypnosis to help you make lasting change that begins from within.

### ■ **What You Will Learn**

**Self-Awareness.** Self-awareness is the first step toward positive change. Learn to recognize and use the power of your thoughts, movement, and physiology to communicate more effectively, enhance your performance and strengthen those relationships that lead to fulfillment and success.

**Stress Management.** Relaxation is the foundation for energy, charisma, and effective communication. Reduce stress and improve your relationships by learning to relax your body, quiet your mind and balance your energies.

**Emotional Freedom.** All too often, our emotions color our thoughts and actions. Increase your self-confidence and personal power by learning to experience emotional freedom and "feel comfortable in your own skin."

### ■ **How You Will Benefit**

- Greater focus and energy to achieve your goals
- Greater adaptability and flexibility in a changing environment
- Expanded creativity and enthusiasm
- Increased self-esteem and self-confidence
- Improved decision-making and relationship-building skills
- Heightened listening skills
- Enhanced job satisfaction

Peggy Koelliker became interested in the healing profession while working as a professional development coach, teaching communication skills to business executives. Through her clients, she discovered the importance of quieting the mind and listening to one's intuitive voice to become more effective on the job and at home.

As an Energy Health & Wellness Coach, Peggy guides individuals to connect with their heart, discover their inner strength and purpose, find that place of inner tranquility where wisdom resides and live from the truth of their own vision.

In the interest of physical health, she also teaches individuals how to release stress, support the body's self-healing mechanisms and balance the flow of energy in the body, so one feels better physically, thinks with greater clarity and experiences greater joy in everyday life.
